The Ultimate Work Experience This Summer

A unique opportunity for school students to test-drive their dream career

We are already more than 75% full for our Summer Career Experiences, thanks to an overwhelming response from enthusiastic students from the UK and beyond.

Our aim is to turn ambitious teenagers into career-ready young professionals. Our Summer Experiences offer tailor-made, immersive activities led by world-class industry professionals. It's an opportunity for students to test-drive their dream career whilst gaining standout experience that sets them apart from the crowd.

This summer, we are running programmes in 15 competitive and desirable careers for ages 12-18 in the heart of London.

UCAS

We are officially recognised as an activity provider on the UCAS application form. This means that students can confidently showcase their Summer Experience to UK universities.

Duke of Edinburgh

Our Summer Experiences are also recognised as a residential activity for the Duke of Edinburgh Gold Award, allowing students to work towards their award whilst on our programme.

Experiences In 15 Industries

For a successful and rewarding career in personal taxation without the need for a university degree, consider Dixon Wilson as an employer of choice.

What We Offer: Tax Apprenticeship Scheme

As part of our Tax Apprenticeship Scheme, our trainees will combine work with studying towards professional qualifications. Successful candidates start with study towards the ATT (Association of Taxation Technicians), followed by further studies towards the CTA (Chartered Tax Advisor), the highest level of tax qualification in the UK. The ATT and CTA qualifications form a four-year Level 4 & 7 apprenticeship programme with Dixon Wilson.

We pay all the costs for professional exams, including tuition courses, study manuals, textbooks, and examination fees for the first sitting. During the tax apprenticeship scheme, trainees will receive paid study leave to attend the tuition courses and exams.

[Apply today!](#)

What makes Dixon Wilson different from the rest?

Many firms' websites will look similar when it comes to exploring further education and training opportunities for trainees and it is hard to set many apart when applying for a training contract.

- We place a strong emphasis on ensuring **our staff remain happy, challenged, and motivated**. Our staff turnover is exceptionally low, an indicator of a positive, healthy workplace which has led to most of our partners and senior staff remaining with the firm following the completion of their training with us.
- Trainees are supported by partners and staff, whose technical expertise is outstanding. This reflected by the number of industry and professional prizes awarded to the firm and the staff.
- Our dedication to training, with approximately 32 trainees joining every year (ACA & ATT/CTA), means that **the office is a vibrant and lively place to work**. Incoming trainees will be surrounded by energetic and inquisitive peers with excellent academic backgrounds and partners who fully support a range of social and charitable events.

Our office is in London, occupying the upper floors and roof terrace of a modern development on Chancery Lane. It is an impressive and fun location to work with views across the city.

FAO Careers: Easter STEM Work Experience with Spectris PLC - Wednesday, 3rd of April from 9am - 3:30pm, Apply Today!

Dear Students,

Are you interested in pursuing a career in engineering, science, or anything to do with STEM? Would you like to gain some rare and invaluable work experience with multiple global FTSE companies? If so, we have the perfect opportunity for you!

We are excited to announce that on Wednesday, 3rd of April from 9am - 3:30pm, we will be hosting a virtual work experience day with Spectris, Malvern Panalytical, HBK and Servomex! Spectris are a FTSE company and own all the other science and engineering-based companies mentioned above. Collectively they operate in over 30 countries, employ over 7,500 people globally, and have generated a revenue of over a billion pounds as of 2024! Each of the companies Spectris owns specialises in a very specific areas of science and engineering and during this work experience day you will get the opportunity to take part in workshops and network with each of their companies.

Participating in an event such as this will not only allow you to learn more about industry, but it will also give you a unique opportunity to gain valuable experience that will be beneficial for adding value to your CV and LinkedIn profile. This will show employers (including Spectris) that you are proactive and looking to develop your skillset before entering the workplace, which can help you to be recognised as an ambitious and motivated individual as well as allowing you to stand out from other students.

Please sign up for this incredible opportunity, by using the registration link below. After the event you will receive a certificate that you can use on your CV's and any job applications that you make.

Registration Link:

<https://www.surveymonkey.com/r/VCP9NZS>

If you have any questions, please don't hesitate to get in touch.

Are your students looking for a way to boost their UCAS applications?

Making the most of your summer is key for Year 11 & 12 students

Are your students looking for a way to boost their UCAS applications?

Find testimonials from our alumni below.

Navigating the UCAS application process can be a daunting task for students and having unique experiences to highlight can make a significant difference. Attending one of our programmes is a great way for students to showcase their skills and demonstrate to universities their passion for the subject they have chosen to pursue.

InvestIN is an official activity provider on the UCAS application form, meaning that students can confidently showcase their Summer Experience to UK Universities.

In fact, **78%** of our surveyed alumni who highlighted their InvestIN programme on their applications secured a spot at their **first-choice university!**

THE SMALLPEICE TRUST NEWSLETTER

Dive into the world of STEM this summer with our fantastic range of courses!

With our Summer of STEM course programme now in full swing, we wanted to provide you with an update on available places. So, without further ado, let's jump in!

Biomedical Engineering (Residential)

APPLY NOW!

BIOMEDICAL ENGINEERING

23 - 26 July 2024
University of Southampton

This course provides students with a comprehensive understanding of the engineering principles and healthcare technologies.

Through hands-on activities and interactive workshops, students will delve into topics such as medical imaging, prosthetics, and tissue engineering.

Open to students currently in Year 11 in England or equivalent.

REGISTER NOW

www.smallpeicetrust.org.uk

Modern Structures (Residential)

APPLY NOW!

MODERN STRUCTURES

30 July - 1 August 2024
Kingston University

Embark on a three-day journey exploring sustainability and innovation in bridge design. Students will delve into planning, analysing, and creating structures with a focus on sustainable materials and cutting-edge technologies.

Open to Year 10 in England and Wales, S4 in Scotland, and Year 11 in Northern Ireland.

In partnership with

www.smallpeicetrust.org.uk

Future Cities (Virtual)

APPLY NOW!

FUTURE CITIES

29 - 31 July 2024
Virtual

Dive into the world of Civil Engineering, uncovering how engineers shape infrastructures for clean, safe, and energy-efficient cities.

Open to students currently in Year 12 in England or equivalent.

REGISTER NOW

www.smallpeicetrust.org.uk

Computing, Electronics & Robotics (Residential)

APPLY NOW!

COMPUTING ELECTRONICS & ROBOTICS

5 to 9 August 2024
University of Southampton

Ignite your child's passion for technology in this five day course, fostering skills for success in the digital era, with the opportunity to design, build and test their own robots!

Open to students currently in Year 12 England or equivalent.

REGISTER NOW

www.smallpeicetrust.org.uk
