West Herts College - Summer Open Days

West Herts College are hosting their Summer Open Days next month.

If you're considering your options for post-GCSEs, then attending an Open Day is a great way to get an insight into everything available at West Herts College

Hemel Hempstead Open Day

Saturday 13 June 9.30am - 12.30pm
Watford Open Day

Saturday 20 June 9.30am - 1:00pm

Why visit a West Herts College Open Day?

An Open Day is the perfect chance to tour and explore the College's campuses and facilities, speak to course tutors, support staff, current students and discover the full range of courses available: A Levels, BTECs, High Needs Provision, ESOL, T Levels, Apprenticeships and much more.

What to expect at our Open Days

If you book your place in advance, you'll have a faster check in on arrival.

Book your place

**Society of
Genealogists**

Volunteering opportunity with the Society of Genealogists:

We have introduced a free volunteering programme for students aged 14 to 17 years old. The programme, 'Future Family Historians', will take place over the summer and includes training in paleography, archiving and digital archiving. The programme ends with a research project which will be published on our website. If you know of any budding Future Family Historians they can apply via a form on our website.

Website page <https://sog.org.uk/support-us/volunteering/>

An opportunity for interested students who might find it useful to volunteer either for DoE or UCAS?

Everything You Need to Know About Applying to University

Free Webinar for Students & Parents

We know that university applications can feel overwhelming for both students and parents.

Our latest free webinar on Wednesday 10th June will guide students and families through the university application process, including:

- Choosing the right fit: Support with choosing the right university and course using our University Survival Kit
- How to apply: Explore the different application processes for the UK, USA, Australia and Canada, including key dates for the diary
- Standing out: Our top tips for impressing admissions teams and maximising your chances of success

This webinar is ideal for students in Years 11 and 12 who are starting to explore their university options.

KEEP INFORMED WITH THE SMALLPEICE TRUST

HELLO JUNE

Summer is almost here, and there's a real buzz across the Trust as we head into one of our busiest and most exciting times of the year!

Our STEM Days are wrapping up across the next two months after another brilliant year, and it's been fantastic to see so many students getting stuck into real-world challenges, developing new skills and showcasing some truly innovative ideas.

It's also been a busy few weeks for our team, with AES Connect Days bringing young people and industry together through engaging, hands-on STEM experiences. Alongside this, our STEM Engagement Specialists have been out and about across the country, inspiring future engineers and sharing the incredible opportunities that STEM careers can offer.

As we look ahead, excitement is building for our summer courses in July and August. With packed programmes of activities, industry experiences and opportunities to learn something new, we're looking forward to welcoming the next wave of young people for what promises to be an unforgettable summer.

There's plenty more happening and lots to share, so keep reading for all the latest updates. And, as always, thank you for your continued support.

SELECTED SUMMER COURSES NOW MORE THAN 50% OFF!

[Engineering Experience Northern Ireland - Smallpeice Trust](#)

[Girls into Engineering - Smallpeice](#)

[Engineering Experience \(Wales\) - Smallpeice Trust](#)

~~£415~~ **£200**
Includes accommodation, meals and all equipment

We're excited to share that the following residential courses, Girls into Engineering, Engineering Experience Northern Ireland and Engineering Experience Wales, are now available at over 50% off thanks to generous partner and funder support.

This is a fantastic opportunity for young people aged 12 to 16 to take part in hands on engineering challenges, experience life on a university campus and explore the exciting possibilities of a future in STEM. With course fees now significantly reduced, these programmes offer an affordable way to gain new skills, build confidence, make friends and discover a wide range of engineering and technology careers in a fun, fast paced and inspiring environment.

CELEBRATING 35 YEARS OF ARKWRIGHT

[Celebrating 35 Years of Arkwright](#)

Join us as we celebrate 35 years of the Arkwright Engineering Scholarship and the impact it has had on generations of young people pursuing careers in STEM.

In this special webinar, you'll hear directly from a panel of Arkwright Alumni as they share their journeys, role the Scholarship has played in shaping their career so far and their continued involvement with the programme. We'll also look ahead, exploring how Arkwright is evolving to open up even more inclusive and accessible STEM pathways for young people from all backgrounds.

Whether you're an educator, employer, supporter, or part of the Arkwright community, this is an opportunity to reflect on what we've achieved together, and to be part of what comes next.

Are you a former Scholar?
