## REGISTRATION ROUTINES AND PROTOCOLS

**Kings Langley School**  
Unlocking Potential for Life

Teachers will be in classrooms prior to the tutor groups arriving, and will ensure that the “Weekly Reflection” slide is on the board (see registration activities folder, correct year group, school week and day)

Teachers will greet students at the door and students will take their seats quietly, then think and reflect on the slide on the board

Whilst the students are busy with this task, teachers will take the register on SIMS

Teachers asks form captain to hand out student folders whilst taking short feedback from students. Then following the powerpoint, begins the activity for that registration

At the end of the character powerpoint each week, students are to write a weekly target linking to the character theme in their planners.

Five minutes before the end of registration, the teacher goes through the equipment checking that all students have all the required items in an efficient and safe way

Where items are missing, students are issued with school ready sanctions, which must be registered on SIMS and for those persistent offenders phone calls made to parents. Where possible, students should buy missing equipment from the library at break or lunch time

Students should pack away silently, whilst the teacher gives out relevant messages

Students then stand behind their chairs silently and are dismissed to their first lesson school ready and in style
