

Kings Langley School

Unlocking Potential for Life

How will staff support my child?

- Teachers and Teaching Assistants have high expectations of all the students in their classes.
- All lessons will be planned to suit the needs of the individual students.
- All staff will use strategies for individual students as suggested by the Learning Support Department and by all professionals working with your child. These will be outlined on their Learning Plan or EHCP.
- Your child may be placed in a small, short term intervention group for reading, spelling and maths led by HLTAs/Tas.
- The school will involve external professionals as required, having consulted with parents, in order to obtain more detailed advice.
- The student will have a Learning Plan built on information gathered from teachers, teaching assistants, parents and professionals and your child. This will inform the teachers to assist in their planning of lessons.
- An Education, Health and Care Plan (EHCP) outlines the learning, physical, health and care needs of a student. It details the outcomes, expected support and strategies for an individual student.
